## Cosmos Engineering

is today a multi-faceted business group with interests in three business domains including:

- a) State-of-the-art Auto & Sheet metal parts manufacturing & light Engineering.
- b) Distribution of Industrial Products & Services.
- c) Intending Services.

Over the years, Cosmos Engineering has always been the front-runner in adapting new technologies and venturing on to newer markets. Our investments and, collaborations, senior management policies and our internal people practices have enabled our products and services to reach regions as wide as Europe, USA, Latin America, Australia, New Zealand, Middle East and South East Asia. The Group has staff strength of over 300 skilled professionals. Two Manufacturing plant, 03 sales offices and 2 warehouses. With constant innovation, adherence to global standards and a highly professional team at the helm, Cosmos Engineering is all set to expand its territories to wider markets and newer business verticals. Cosmos Engineering's corporate philosophy is to expand into new vistas with a strong focus on exceeding our Stake Holders expectations. We cherish our partnership with every client across all business units.

Our corporate philosophy has always been:

- Explore new Vistas and Set Global Standards
- Keep-up with the Time with Values Unchanged

As Cosmos Engineering., faces the 21st century, the company takes pride in its work by using the latest and updated technology available. Since its start of operation (September of 1995) up to this day, Cosmos Engineering., have been providing machining, metal and fabrication components/items to various clients, serving the clients according to their needs. We believe that we'll be able to compete globally in the near future since it is the company's vision to

## COSMOS ENGINEERING

is also a place where born solutions that meets the needs of our customers

become a highly respected fabricator and producer of various machining and metal components/items.

The company assures its clients of their satisfaction by addressing their needs and requirements in a timely manner. At its early stage, Cosmos was able to capture almost 75% of the total market requirement for Automotive, Appliances, Electronics, Bottling, Shipping and Mining industries merely because of its COMMITMENT IN TOTAL CUSTOMER SATISFACTION. In this regard, it is thus projected, that it won't take too long for Cosmos to rise into prominence and gain the stature as one of the most reliable and prestigious player in the manufacturing industry.

The company safety and product quality. An open communication policy is practiced throughout the company wherein the personnel are encouraged to air their problems and resolve them at the earliest possible time. At the early stage, Cosmos Engineering's production is strongly determined to lead in this industry by its new management style and system of operation. It's simple organized structure, office procedures, and policies reflect a new enterprising industry, but still concerned on work volume capacity and efficiency already reached a level of about 3 to 4 tons per month with zero accident reported.

As of Today, the company is already ISO 19001:2000 Certified under 5s Standard.
